NORWAY AND VICINITY

Vivian Akers is to hold an art exhibit next week at the drug store at the corner of Lisbon and Main streets, Lewiston.

Mary E. Adams, more familiarly known as Quincy, has finished the season at Mrs. R. L. Powers' millinery store, and went to Portland, Tuesday, where she will visit before her return to her home in Wiscasset.

The Western Maine Poultry Association premium lists have just been issued. There are about four hundred association and special prizes offered and this bids fair to be the best of the meetings held yearly by the wide awake association.

Mrs. Louise Baker gave a party Saturday evening at the home of Mr. and Mrs. John Shepard on Crockett Ridge. An excellent chicken pie supper was served in the spacious dining room, and a very pleasant evening was enjoyed with games and music.

Mr. and Mrs. Howard Fogg (nee Izah Pike, daughter of Mr. and Mrs. Horace Pike of Norway) of Berlin, N. H., left Wednesday evening for Montreal, P. Q., where they have excepted positions in the King Edward theatre. Mr. Fogg will be the first violinist in a five piece orchestra.

Ernest Brown, printer, who has worked at the Advertiser office for the past three years and a half goes to Boston, Saturday, where he has employment. He was captain of the "Norway Regulars" basket ball team and was much interested in sports like basket ball, baseball, etc., and was popular.

A meeting was held Monday evening at Engine House Hall by the Western Maine Poultry Association to make their plans for the exhibition, and H. E. Lovejoy was appointed delegate to represent this association at the Freeport exhibition, which will be held at Brunswick next week. It was also voted to build new coops for the association and will add about thirty more pens to show.

Raised the Money and Left the Diamonds.

On Wednesday, Oct. 16th, a well dressed, nicely appearing woman registered at the Beal's Hotel and made the usual inquiries of a stranger coming to town. She had business to do with the jewelers—on whom she immediately called.

Dr. DeWitt Parmenter was first seen and was sold three non-blotting fountain pens made by the Crown Fountain Pen Co., of Chicago.

In due time the pens were received and are all right.

V. W. Hills was visited and her goods shown and story told. She was a smooth, convincing talker and almost persuaded Mr. Hills that he needed a line of her fountain pens for the Christmas trade, but he did not purchase.

She next interviewed F. A. Cole and pleasantly informed him that she was in need of money and would like a reasonable loan on some of her jewels to help her out of financial straits in which she was struggling—30 days was long enough and she could then easily redeem them—only a moderate loan was asked. A diamond brooch was shown containing eight stones and a big sparkler in the center. Mr. Cole was asked if he would loan her $150 for the time specified. The diamonds looked fine, sparkling and glinting as she lovingly caressed and turned them in the light, but she must have money. Mr. Cole didn't have the money to invest; he looked at them and pronounced them genuine. She was persistent and asked if Mr. Cole didn't know someone in town who would make the loan. He gave her the name of a person who might be interested as he was not for reasons stated.

Later on Mr. Cole was called by telephone and inquiries made regarding the gems and their value. This was from the person whom he thought might make the loan. It was arranged that the party would call that noon and he would examine and pass upon the value of the sparklers. They came not in to him.

After dinner the lady and the diamond Investor called on Dr. Parmenter. The Investor introducing the lady to Dr. Parmenter, whom it is needless to say had met a few hours before. The question of value was talked over and the lady thought $165 was shockingly conservative for the sunburst of diamonds of that magnitude. The doctor said it was more than he would put into it; she did not know their value but she knew what they had cost her and she thought it only a low price—Two diamond ear jewels or pendants were reluctantly produced and passed to the Investor with "Well, put those in if you are afraid there isn't sufficient value in the big one—I can redeem them all. I have no use for the ear jewels without the other and you might as well have them. I want you to feel I'm fair in the matter—all I know is what they cost but money I must have."

A check was written and properly signed—the amount and condition unknown to our informant. The lady demurred, saying she couldn't get the money at the bank without being identified. The Diamond Broker and lady went out into the cruel world, and probably to the bank.

The curtain now drops.

At 3 45 that afternoon the well dressed, self poised, fountain pen vender, relieved of her passing financial embarrassments, took the Harrison stage for that burgh—Col. Frank Eastman entertaining the while cross country.

Since which time she has not been heard from.

Thirty and more days passed and no tidings or check come—ten more anxious, expectant days watching the mail, and the Diamond Broker breathed easier as surely he was coming into possession of the sparklers, a good profit and a small fortune.

A little later on the sparkling gems were shown to confiding friends; they were gently lifted from their cotton encased beds and admired; estimates made as to their value, commercial worth, etc.

Selectman Geo. W. Holmes heard of the Investor's good luck and thought he had something regarding diamonds on file at the assessors' office. It was produced and we give it in its entirety:—

(Beware of Swindlers.)

To the Mayor:

Dear Sir:—Being a victim myself, I notify you to beware of a man, also a woman, that are travelling around in your state from town to town claiming that they are financially embarrassed and need some money for which they are willing to put up as security diamond jewelry. This jewelry is put up in such style as to deceive the jeweler and the public. It is of the cheapest grade of diamonds, flawed, and very inferior, but mounted in such shape that the jewelers are deceived in adjusting the value of same. They usually ask a loan on the jewelry, claiming that they will redeem it in thirty days and pay good interest for the loan, which they never intend to redeem. They make this as a business to swindle the public, and they are obtaining money under false pretences.

It will be to your interest to be on the lookout for this man or woman, and notify your jewelers of the facts.

Yours very truly,

The fountain pen saleslady registered at the hotel as "L. A. Fenn, Waupet, Ohio."

LATER—IMPORTANT NEWS:—We are creditably informed that the Diamond Broker has sold "the sunburst" for $190 and has in stock only the ear jewel gems.

Winfred Scothorne is sick at the home of his grandmother, Mrs. Fannie Frost, on Paris street, with typhoid pneumonia and is being cared for by a trained nurse.

Commissioner of agriculture, J. P. Buckley and the Dairymen are having further trouble this year. It started last year in Norway and it seems the storm clouds have not all cleared away. There were two meetings last year one in Norway and one in Portland. Mr. Buckley wanted the meeting in Portland and he had it. In his mind this is the only place in Maine to hold a dairy meeting. This year has started with a dairy meeting in Portland. Now the trouble seems to be that not only is the place where the meeting was held not a great dairy community but the three executive committees do not own cows and some of that number never did own a cow.

Norway Municipal Court.

WM. F. JONES, JUDGE.

Cyril Sampson of Lewiston was before the Norway Municipal Court the first of the week, charged with carrying liquor which was intended for illegal sale. He was arrested by Harry D. Cole, who thought the man acted suspicious and was carrying a large dress suit case and was on his way to Norway. On opening the suit case it was found to contain 8½ pints of gin and 9 quarts of whisky, all in pint bottles. Sampson claimed that it was all for his own use and that he had come to Norway to work and had laid in a stock of liquor, but his statements were conflicting and Judge Jones found the man "guilty," and imposed a fine of $50 and costs of $8.34, which he failed to pay and was given 60 days in jail, and was committed.

Charles R. Payne.

Charles R. Payne died very suddenly, Tuesday evening, at 9.30, at S. C. Foster's barber shop.

Mr. Payne had been playing pool, and during a game swallowed a piece of tobacco, which nauseated him, affecting his heart, and death was due to heart failure.

Mr. Payne was born in South Hampton, England, and was 40 years, 9 months and 12 days old. He came to America at the age of seventeen years. He formerly lived in Bethel, but came to Norway thirteen years ago, where he has since lived. For three years he worked for A. C. McCrellis at the grain mill, and since then has been engaged at the shoe factory of B. F. Spinney & Co. He married Mrs. Myrtie (Styles) Maxim, by whom he is survived, and also by their six children:—Erna Claire, aged 13; Charles R., aged 11; Albert E., aged 10; Arthur M., aged 9; Urshal, aged 4 and Frances P., aged 7 months. He is also survived by his mother, who resides in England, and by four brothers and four sisters. He was a good, kind husband and father and was an honest, hardworking man, being faithful to all the duties entrusted to him.

In politics he was a democrat, and he was a member of the Modern Woodmen of America.

The funeral services were held Thursday afternoon at two o'clock at the Universalist church, in charge of the Modern Woodmen of America, and the officiating clergyman was Rev. M. C. Ward. Interment took place at Pine Grove cemetery.

It is to be a covered dish party and all the ladies on Mrs. Holmes' side will bring something nice to eat and bring it in a covered dish as it is to be a surprise supper. Basket Ball.

At the Opera House, Friday evening, a game of basket ball was played before and between the games played by the Bridgton and the Norway High school teams, by the Freshmen and the Grammar school teams. This was a fast and exciting game, the score being 22 to 11 in favor of the Freshmen.

The line-up was as follows:

Freshmen.

	F. G.	Fouls	Total
Andrews, lf	3	0	6
Harrrman, rf	4	2	10
Descotean, c	2	0	4

The same evening at the same hall in a cleanly played game, Norway High team was defeated by Bridgton High school and the result of the game was doubtful until the referee blew his whistle for the end of the game.

Norway outclassed their opponents by a mile but their goal shooting was off and they let severel opportunities slip by when a goal would have counted.

Fouls lost the game for Norway. Norway needs the services of a coach and with proper handling should be able to give any team in the State a tough time to get away with a game.

M. Russell was all over the floor as were Shepard, Klain and Chute, the high school's brilliant centre. Teddie Frost is a guard who can cover anything that is put up against him.

Bridgton has the services of a coach and their defeat by Bridgton does not daunt the high school one bit for they feel that they feel that they will defeat Bridgton in the next game.

Spring played a great game for Bridgton caging 10 goal from fouls and 2 from the floor. Shepard and Chute did most of Norway's scoring.

The final score was 18 to 10. Milliken's full orchestra furnished excellent music for dancing which was enjoyed by a large crowd until 12.30.

A basket ball game will be held Friday evening at the Norway Opera House, by the South Paris Athletic Association vs. Norway High school. The game will be called at 8.15. After the game, dancing will be in order until midnight or later.

The Cecilia concert, given under the auspices of the Delta Alphas of Deering Memorial church, was held Tuesday evening in the vestry of the church, and was largely attended. The concert was pleasingly rendered with hearty applause for each number.

The Cecilia Trio is composed of Phyllis Craig, cellist; Earl Woodman, violinist and Esther Holden, pianist, all of Portland, and were assisted by Mrs. John F. Wood of Snow's Falls, as reader, and Lona Noble of Norway as soloist.

Mr. Woodman is the son of Dr. H. C. Woodman, of Woodfords, and is 17 years of age. He is endowed with wonderful ability as a violinist and has only been taking lessons for about two years of one the best Portland teachers. He promises to be a master of the violin.

Miss Holden, who is a fine pianist, is a pupil of Karl Tower of Portland who formerly lived in Norway. The cellist, Miss Craig, gave a number of fine selections. She is taking lessons of a Boston Professor and makes a trip to Boston each week.

Lona Noble, of Norway, was the soloist of the evening and her selections were finely rendered. Miss Noble has a clear soprano voice and has become one of the popular local singers. She is studying with Howard R. Stevens, of Portland who teaches in Norway on Wednesdays.

Mrs. Wood, of Snow's Falls formerly of Boston, the reader, received warm applause. Her selections were varied and ere throughly enjoyed. Mrs. Wood is very pleasing reader and is no stranger to a Paris audience.

This trio was formed early in the summer and have been giving concerts in different places in Portland and Augusta and are meeting with success.

Truth Triumphs

Norway Citizens Testify for the Public Benefit.

A truthful statement of a Norway citizen given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Norway citizen tells of Doan's Kidney Pills

Could you demand more convincing proof of merit?

S. C Foster, barber, Main St., Norway, Me. says: "The public statement I gave about Doan's Kidney Pills several years ago was right in every particular. I use this remedy getting it from Stone's Drug Store, and I am glad to say that it is the best one on the market. I have had no serious kidney trouble, but when I need a kidnes tonic, Doan's Kidney Pills soon make me feel alright again. Sometimes when I catch cold it settles on my kidneys. but a few doses of Doan's Kidney Pills give me relief." 50 51

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. BOLSTER'S MILLS.

Be Ye Thankful.

Nothing from our pen of late, as we were too busy preparing to be thankful to write. This reminds us of an experience as school teacher. When we questioned the pupils in a primary grade concerning the purpose of Thanksgiving, every child from the 5 years old to the 14 years of age declared it "a big dinner, when you have turkey and plum pudding to eat's, etc." Alas! so have we perverted the teachings of our noble ancestors.

Thanksgiving was observed at Bolster's Mills by the usual family parties.

Mrs. Mary Skillings, Mrs. Theresa Jillson, Mr. and Mrs. Sumner Skillings of this place and the Misses Georgia and Carrie Horr, of Bridgton, dined at Hotel Weston.

Mrs J. D. Howe entertained Atherton and Helen Andrews of Auburn.

The Melville Wilbur's had a large party including the A. R. Clark's, W. S. Carne, Mrs. Virginia Hagar and son, Howard of Milan, N. H.

Mrs. George Skillings had as guests her sister and husband, Mr. and Mrs. Harry Snowman, of Portland.

Harry Lowell and family of South Paris were at Elisha Turner's for the day.

Mr. and Mrs. Frank Barrows of South Paris were at A. E. Wright's. We think this includes all guests from a distance. Others had guests or went away.

Thanksgiving eve the Crooked River Grange Dramatic Club presented the drama, The Country Doctor, to a crowded house, and a dance followed the drama. People came from all the neighboring towns.

A. R. Clark went to Auburn, Monday, in his auto.

We hear of several who are ill from stomach trouble, another perversion of our great National holiday.

We have heard of a man not far over the Harrison line who has recently shot a deer. As he seems reticent on the subject, possibly he is bashful about having his name in print. Doubtless the venison tastes well.

This is a rainy afternoon and the rain descends in torrents, the streets are slippery and pedestrians are seen endeavoring to keep their footing, some can and alas! some can't. Auto's, sleighs and carriages are all used.

The Good Book commands us not to envy our neighbor's belongings. We intend to obey this injunction but when the autos spin along our streets so smoothly we sometimes wish the Fates had been kinder to us. We are thankful for a good equine which never "turns turtle, gets short of gasoline or "busts a tire."

The latest news is too good to keep. A middle aged woman who resides about three miles from our village, drove in to make calls on friends, Saturday evening; when she was ready to return home she went to the shed where she left her horse and found it had taken french leave: so she walked the three miles to her home reaching it between midnight and one a. m. Sunday. Now laugh till you bold your sides.

Dr. A. E. Wright has a hen house in process of construction which he says is "as big as a barn and a double decker." During the high wind of Sunday night, Nov. 17, the frame was razed to the ground but with characteristic energy the M. D. had work resumed upon the building and soon the shining dollars will be produced from this source, for "There is money in the hen business" says the doctor.

Our December Weather.

Weather predictions for the month: December will come in moderate the 2d will show indications of an approaching storm which will touch many sections in the southern portion. Rain and thunder in the northern section, snow followed by a sudden change to colder the cold wave spreading far to the south. A regular storm period is due from the 5th to the 8th. Severe winter storms are due about the 8th. Look for blizzardous conditions from the northeast followed by a fierce cold wave.

Rain and snow will visit wide areas during the 11th, 12th and 13th and prepare for vicious winter storms and a sweeping cold wave to follow the storms. Another storm period is due from the 16th to the 20th. About the 17th, winter thunder and lightning will visit many places turning to snow and high winds on the 18th, 19th, 20th and 21st. Ships on the Atlantic will encounter fierce storms and be baffled by wind and ice storms and weather conditions generally will be of similar character calling for prudence and forethought for man and beast.

Plan before the storms for safety and comfort during the storm and dangerous cold wave that will follow. Renewed storm will be in great force on and touching the 23d, 24th and 25th most parts of the country will get a supply of snow for Christmas with a cold wave rushing from the west about the 25th to 27th. Rain, sleet and snow with a spell of warmer weather will wind up the month and year.

Many growing girls in school or business are frail—delicate—anemic—lack energy and ambition and have thin blood. It is all unnatural and unless checked leads to serious and chronic ills.

Nourishment, not drugs, is the law of reason to build strength—but when appetite is poor and digestion weak, ordinary foods do not nourish—then *SCOTT'S EMULSION* is necessary.

SCOTT'S EMULSION overcomes just such conditions; its tissue material enters the blood without digestive effort and makes it rich. It tones the whole system and starts the healthy action of cells throughout the body.

Imitations are often offered, but to get results you must get SCOTT'S.

Mrs. Mary Kendall Holt.

Mrs. Mary Kendall Holt, probably the oldest woman resident of Lynn, Mass., died at the home of her daughter, M. Lizzie Holt, Lynn, Sunday night Dec. 1, leaving 47 descendants. She was 98 years of age.

A Valuable Suggestion

IMPORTANT TO EVERYONE

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live an indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of kidney trouble, such as lame back, inability to hold urine, smarting or burning, brick-dust or sediment, sallow complexion, rheumatism, may be weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

An herbal medicine containing no minerals or opiates has the most healing influence. An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp-Root.

You may receive a sample bottle of Swamp-Root by mail, absolutely free. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention the Norway Weekly Oxford County Advertiser. 49 52

WATERING PLANTS.

How the Best Results May Be Obtained—Things to Avoid.

On first consideration it does not seem possible that there can be much to learn in the simple matter of garden watering, but such grave and disastrous mistakes can be made in this direction that a few hints should prove useful to amateur horticulturists.

It should be said at once that the watering of whole beds and borders should be delayed for as long as possible, moisture only being given artificially to such subjects as must have a fairly damp soil in which to prosper and, of course, to small seedling plants. Overwatering is frequently a cause of loss.

By keeping the surface well loosened with the hoe, so that every drop of rain sinks into the soil, the time when the hose or water can become absolutely necessary may be put off for several days. But when the day arrives on which watering is essential let it be a thorough soaking you give the plants. A mere sprinkling of moisture then does much more harm than good.

Water applied direct from the main through a hose or can is not beneficial to plants. On the contrary, it fequently does them injury.

If there is no storage of rain water available do not let cold tap water touch the stems and leaves of plants. Direct the stream on to the surface round the stems or place some old, decayed manure round the plants and pour the water on to it.

In hot weather watering should be done in the evening, unless there are young plants which are liable to be attacked by slugs. Such plants it is advisable to moisten in the morning.

HOW TO USE ODDS AND ENDS

Handy Ways to Utilize Remnants From the Bargain Counter.

Out of odd lengths of ribbon or half yards of satin a stock of little bows and cravats can be made which provide such an indispensable finish to the jabot or a lace shirt. The merest strips of ribbon can be converted into the little posies of mixed flowers which can be worn in the center of the corsage or tucked into the coat front. Purple ribbon can be turned into violets, pink, red and crimson into rosebuds and berries, blue into forgetmenots and green into leaves and stems, while other shades are equally useful, roses, poppies and jessamine being easily carried out in colors which do not legitimately belong to them. To make the berries, which are so popular just now, all that is required in addition to the remnant of satin or ribbon is a little cotton wool, which should be made into the tiny tufts. Each one should be attached around a "crook" of wire and then covered with the material. These pellets can afterward be massed together to represent elderberries or ivy with foliage of green satin or silk.

A few yards of beaded net can be converted even at home into a useful tunic which will entirely metamorphose an evening gown. The bottom of the tunic can be edged with embroidery or fringe which has been sold probably at a fifth of its original price. A clever dressmaker can frequently join strips of embroidery together, hiding the seams with a motif or tassel, while short remnants of the same pattern can often be picked up for considerably less than if the trimming were all in one piece.

How to Remove Can Tops.

Fruit can tops have an annoying habit of sticking. Have two strips of coarse sandpaper an inch wide and eight inches long in the kitchen. Fold the strip of sandpaper around the can top and give it a twist. It will loosen immediately.

HOW TO BOTTLE FRUIT JUICES.

Great Care Should Be Taken When Fitting Corks.

In putting up fruit juices in ordinary bottles exercise the same care in sterilization that you would for ordinary canning. Have the bottles clean and heated to boiling point in water, new, scalded corks, etc. Usually the fruit juice will need heating to steaming point, settling and filtering as for jelly. After that put it into the clean bottles, leaving a little space to allow for the liquid's expansion on heating.

Set the filled bottles on a rack in a wash boiler, fill up with water to within an inch of the tops and heat gradually to the simmering point. Then cork and seal immediately.

The corks should be put in hot water for some minutes before using, since this not only sterilizes them, but makes them more pliable, so that a good fit is certain. The corks, being porous, need to be completely covered with paraffin or sealing wax. A cheap kind of the latter, called "bottling wax," is usually a little safer than paraffin.

MRS. HERBERT A. WHEELER.
MR. JOHN K. WHEELER.

Albany, Me.

ALBANY.

Herbert A. Wheeler.

Herbert Ashton Wheeler, only child of John K. and Olive Johnson Wheeler, died very suddenly of heart failure at his home in Albany, Friday, Nov. 15. Mr. Wheeler had been out deer hunting a little while in the early part of the forenoon and on coming home went to the barn with his father to cut the tops from some turnips which they had in the barn floor, and it was while busily engaged in this work that he suddenly threw up his hands and fell backward, expiring almost instantly.

He was a young man of sterling character having no bad habits, being honest, industrious and kind-hearted; ever ready to speak a word for the right, and to lend a helping hand in time of need. He was a fine farmer and was much interested in the raising of good blooded stock.

He and his father had lived alone since the dearh of his mother in September, 1911, until about two months before his death, when he was married to Miss Florence Haselton, one of Albany's finest young ladies, to whom his sudden death has been a most crushing blow.

Much sympathy is expressed for the aged father, on whom the burden falls most heavily; also for the young wife so early made a widow.

On great Heaven's beauties
Gaze the eyes we loved to see;
Done earth's weary duties,
Now, eternity.

But our souls, still living
Speak in words of comfort sweet,
Grandest promise giving,
That again we'll meet.

The funeral was held from his home on Monday, Nov. 18, Rev. Mr. Fickett of Bethel officiating. The floral tributes were beautiful, a list of which follows:

Wreath with word, Husband—Mrs. Herbert Wheeler.

Knees Became Stiff

Five Years of Severe Rheumatism

The cure of Henry J. Goldstein, 14 Barton Street, Boston, Mass., is another victory by Hood's Sarsaparilla. This great medicine has succeeded in many cases where others have utterly failed. Mr. Goldstein says: "I suffered from rheumatism five years, it kept me from business and caused excruciating pain. My knees would become as stiff as steel. I tried many medicines without relief, then took Hood's Sarsaparilla, soon felt much better, and now consider myself entirely cured. I recommend Hood's."

Get it today in usual liquid form or chocolated tablets called Sarsatabs.

Dickens' Christmas.

From Works of Yuletide Author Whose Cenetenary Comes in February.

An angel, speaking to a group of shepherds in a field; some travelers; with eyes uplifted, following a star; a baby in a manger.

Happy, happy Christmas that can win us back to the delusion of our childish days; that can recall to the old man the pleasures of his youth; that can transport the sailor and the traveler, thousands of miles away, back to his own fireside and his quiet home.

After dinner Caleb sung the song about the sparkling bowl. As I'm a living man, hoping to keep so for a year or two, he sung it through.

A merry Christmas and a happy New Year to the old man, whatever he is! He wouldn't take it from me, but he may have it nevertheless.

But my song I troll out for Christmas stout,
The hearty, the true and the bold.
A bumper I drain and with might and main,
Give three cheers for this Christmas old!
We'll usher him in with a merry din
That shall gladden his joyous heart,
And we'll keep him up while there's bite or sup,
And in fellowship good we'll part.

We're to be together all the Christmas long and have the merriest time in all the world.

He heard them give each other merry Christmas as they parted at crossroads and byways.

Yo ho, my boys! No more work tonight. Christmas eve, Dick! Christmas, Ebenezer! Let's have the shutters up!

Christmas was at hand in all his bluff and hearty honesty. It was the season of hospitality, merriment and open heartedness. The old year was preparing, like an ancient philosopher, to call his friends around him and, amid the sound of feasting and revelry, to pass gently and calmly away.

The tree was planted in the middle of a great round table and towered high above their heads. It was brilliantly lighted by a multitude of little tapers and everywhere sparkled and glittered with bright objects.

Upon your own hearth, in its quiet sanctuary, surrounded by its gentle influences and associations, hear her, bear me, hear everything that speaks the language of your hearth and home.

We all come home or ought to come home for a short holiday—the longer the better—from the great boarding school, where we are forever working at our arithmetical slates, to take and give a rest.

Holly, mistletoe, red berries, ivy, turkeys, geese, game, poultry, brown meal, pigs, sausages, oysters, pies, puddings, fruit and punch.

But hark! The waits are playing, and they break my childish sleep. What images do I associate with the Christmas music as I see them set forth on the Christmas tree?

And numerous indeed are the hearts to which Christmas brings a brief season of happiness and enjoyment. How many old recollections and how many dormant sympathies does Christmas time awaken!

Light Your Kitchen with a Rayo Bracket Lamp

Sometimes in the kitchen or elsewhere you need a lamp held high, where it will light the whole room, and be out of the reach of children.

The Rayo Bracket Lamp is made for exactly this purpose. It is one of the famous Rayo Family—the best kerosene lamps made. A clear, white light, steady, diffused. A strong, substantial bracket, easily affixed to the wall. The lamp is inexpensive. Economical. Lighted without removing chimney or shade. Rayo Lamps are made in various styles and for all purposes. *At Dealers Everywhere*

NORWAY AND VICINITY

Norway Imprints.

The item I sent to the Advertiser a few weeks ago regarding Norway imprints has produced a number of interesting examples.

From Mr. S. B. Cummings I have received Volume I of the Religious Instructor, published at Norway in 1845; Volume II, 1846, from Mrs. George I. Cummings. This was an interesting little monthly issued mid-monthly by the Rev. T. J. Tenney, father of Mrs. Frank A. Da forth and the Rev. Charles R. Tenney. As the title indicates it is a religious and moral publication full of extremly intelligent matter, well written and nicely printed. A 12mo, 36 pages constitutes a number and a table of marriages and deaths was carried on the last page together with religious notices and news of the movements of Universalist clergymen.

At a recent sale in New York I ran across a very unusual item which unfortunately I was unable to purchase, some other person outbidding me. This is an octavo of 62 pages, published at Norway in 1553, Advertiser Press. "Narrative of a few of the Scenes and Incicidents in the Sanguinary and Cruel War of 1812 15, between England and the United States; written by one who, in defense of his Country's Rights, has passed through or was an eye witness to to nearly every Scene and Incident here related."

I would like to know if any one in Norway has a copy of this phamphlet and could tell me more about the work and its author.

Mrs. M. E. Anderson of Norway writes me that she has a copy of Robert Blair's celebrated poem, "The Grave," printed by Asa Barton, a 12mo volume of 33 pages and "The Young Scholars First Book, a Guide to Knowledge," 33 pages, printed by Mr. Barton in 1825.

It would be very interesting to know if there are any other works extant from his press, or the later establishments of Thomas Witt, Ira Berry and George W. Millett. I will welcome any information on this line. Address,—Don C. Seitz, 63 Park Row, New York.

Louvie P. Swett and wife of Bangor were visitors in the two villages over Sunday. Louvie has recently returned from a hunting trip to his camp in Haynesville, Aroostook County and the party brought out 4 moose and 12 deer. His father, Benj. Swett of South Paris was with him on the trip. They returned home Monday as he is busy establishing agents in Eastern Maine for the sale of Reo autos.

"Montana Harry," who did us up so handsomely a few years ago in the nonpayment of his printing bills, dropped dead recently in a hotel in Worcester, Mass. He had on his person a roll of some $400. While here he was a vender of roots, herbs and barks and occupied a store on Beal street. He did us up so slickly we should ever cherish his memory and wish him friends and good luck in the world to come.

Is Peruna a Laxative?

S. B. HARTMAN, M. D.

I am in receipt of a letter from a mechanic who is at the head of a prosperous household. Peruna has been used in his family for a good many years. He writes as follows:

"As you know, we have used Peruna in our home for a number of years. We find it a reliable household medicine in catarrhal conditions, coughs, colds and grip, and many other ailments to which the family is subject. But since the change in the formula of Peruna I do not find it quite as useful to myself. My bowels are naturally very active. I cannot take a cathartic of any sort. It does me injury to do so. The old Peruna contained no cathartic ingredient and was therefore a very useful medicine to me. But I notice that the new Peruna has a slight laxative action, which almost makes it prohibitory for me to use. I was wondering if there was not some way in which I could obtain the old Peruna as you used to make it."

To this letter I made the following reply: "Yes, the new Peruna does contain a laxative element. You should therefore take the old Peruna (Ka-tar-no) which has no laxative quality. While prescribing the old Peruna I found it quite necessary frequently to prescribe the laxative Manalin in connection with it. Therefore Manalin was combined with Peruna, in order to meet those cases that require a laxative. But in case no laxative is required the objection to the new Peruna you speak of arises. Many of the people who used to take the old Peruna found difficulty in taking the new Peruna To meet those cases I am having manufactured the old Peruna under the name of Katarno, and if you are anxious to get the old Peruna exactly as it used to be made you can do so."

PERUNA IS FOR SALE AT ALL DRUG STORES.

SPECIAL NOTICE.—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.

Our Best.

The dreamer sings of Elysian fields,
Where the just and true are glorified,
Where never cloud athwart the sky
Can darken, and no sins abide.

The robin sings her sweetest song,
Nor is content with harsher note,
But ever his own best roundelay
Pours forth from tiny breast and throat.

The master paints, with greatest care,
The brightest landscape for the eye;
He sees naught but the fairest scenes,
The purest springs, the brighest sky.

The sculptor, who with skilful hand
Almost doth dull clay to live,
Forms 'neath his hand with dextrous touch
The grandest that the world can give,

The mother bending o'er her babe,
Sings but her sweetest lullaby,
Breathing for him her purest prayer,
Drawing for him her tenderest sigh.

So should we, with the poet's soul,
The artist's sense of taste and zest,
Ever thro' realms of purest love,
Demand the noblest and the best.

BRYANT POND.

New County Jailer.

J. A. Titus is to move to South Paris, where he is to be jailer for Oxford County. His son, Leroy W. Titus, will move from the Felt rent into the rent vacated by his father.

Alton York's new house on the Rumford road is up and closed in. This will be one of the best residences in the village.

Woodstock has never had a bad reputation for furnishing Oxford County with jail-birds, but it looks as if it was to have its share of jailers.

The basket ball game at the Dudley Opera House, Friday night, between the girls' teams of Gould Academy and Woodstock High, resulted in a tie game. Score, 9 9.

H. Alton Bacon, our local contractor, is having all the work he can do and a good prospect of considerable work through the winter. He has a well equipped planing mill, and our citizens find it quite a convenience to have a place in town where such work can be done.

Ned I. Swan, our local harness maker, has had hot water heat installed in his house and shop. This will be a great convenience for Ned as he can now open up what was formerly his ice cream saloon as a show room and can use the whole of the other apartment as a work shop.

Bryant Pond stores were never in better position to supply their customers for the Christmas trade. Let us patronize home industry this year and by so doing not only help them out, but help our town as well. On a large part of our trade we can do just as well right here at home as we can in larger towns, when the carfare and other expenses of trading away from home are reckoned out. There is no reason why Bryant Pond should not make a steady gain as a trading centre, for our central situation is all in our favor.

The Dearborn Spool Co., are doing their usual good business at their factory here. Every good citizen of Woodstock would rejoice that we have right here in our town as solid and substantial an industry as can be found anywhere. From 30 to 40 men are given steady employment the year around and this plant may be considered the industrial back-bone of our village and town. The management, Frank P. Cole and Arthur C. Ricker, are public spirited citizens who will do everything in their power to continue to build up the industry, and the farmers and others in our good town of Woodstock should do everything possible to encourage such a worthy enterprise. It is safe to say that no other company has a better reputation for square dealing and honesty than the Dearborn Spool Co.

Mrs. Floris McInnis, Kenneth and Mildred, spent several days with her father, A. F. Brooks, in Grafton.

Mr. and Mrs. Ned I. Swan had Mrs. Ellen Briggs of West Paris and Mr. and Mrs. David G. Swan, at Thanksgiving dinner.

Mrs. Roy Titus and daughter, Gertrude, spent from Thursday until Sunday afternoon with her parents, Mr. and Mrs. Alva Andrews, at South Woodstock.

Mrs. Elizabeth R. Whitman invited Mrs. Lucinda Rowe, Mr. and Mrs. Lee M. Rowe and Emily J. Felt to Thanksgiving dinner. Mr. and Mrs. S. J. Oldaker and Doris dined with Mr. and Mrs. George R. Coffin.

Mrs. Abby Dunham had her children: Mr. and Mrs. Walter Small of Dixfield, Mr. and Mrs. Charles Dunham of South Paris; Mrs. May L. Bolster and grandchildren, Mr. and Mrs. Frank Dunham of South Paris, Mr. and Mrs. Seymour Brooks, Claude Brooks and Gertie Bolster, with her for Thanksgiving dinner, Several others spent the afternoon with her.

There are several young women whose birthdays closely follow each other, so they have been having parties in honor of them. Of course they don't tell their age,—that is going out of fashion. The first party was held with Mrs. Pearl Wing, and a social evening with a treat of ice cream, fancy crackers and fudge, made a pleasant time.

The public schools of Woodstock opened for the winter term, Dec. 2.

Woodstock town team defeated Bethel town team at basket ball. Score, 51 to 42.

H. Alton Bacon has completed most of his out-of-town jobs and has begun the erection of Alton York's new house on the Rumford road.

The Thanksgiving ball held here under the auspices of Franklin Grange was well patronized and a snug little sum was realized which will be used towards paying for the stable.

Hamilton--Charles.

No social event of the season has called forth more sincere and cordial interest or been more pleasantly anticipated than the marriage which took place at high noon at the home of Mrs. Benj. Pierce Hamilton of Waterboro, when Blanche Charles, daughter of Mr. and Mrs. Howard Charles, and James Oliver Hamilton were united in marriage.

The home had been made florally beautiful by skilled decorators. The bridal white and green color idea was carried out with artistic effect. The space between the windows in the reception room, where several marriages have been solemnized, was banked with flowers, ferns and masses of greenery, producing a fitting background for this beautiful wedding tableau. Radiating from the altar to the hall were garlands of greenery and ribbon looped and tied in huge bows, making an aisle for the bridal party. The folding doors to the library, used as a gift room, made a floral archway decorated with flowers and trailing vines, which artistic arrangement added much to the beauty of the scene.

At an early hour a brilliant assemblage of guests began to arrive to witness the most important event in the lives of Miss Charles and Mr. Hamilton.

From 11.30 to 12 a brilliant program of wedding music was rendered. Marie C. Dolliver sang "Thy Wedding Morn" by Nevin also "Thy Beaming Eyes," by MacDowell, Effie L. Hamilton as accompanist. Lohengrin's Wedding March was finely played by Mrs. Elmer Hobbs.

With the first notes of the wedding march an expectant hush fell upon the audience as the bridal party slowly approached the altar, and truly, this march, sacred to many memories, never announced the coming of a more lovely bride.

The groom was attended by his brother, Benj. Pierce Hamilton of Philadelphia. The flower girl, little Wilma Browne, preceded the bridesmaids. She wore a dainty little dress of white silk mull with pale green ribbons, and carried a pretty green basket decorated with white ribbons and filled with rose petals that she lavishly strewed in the bridal pathway as they marched from the room after the ceremony.

Carrie Marie Dolliver, cousin of the bride, acted as bridesmaid. She wore a dress of white Princess lace over white silk, with a Parisian necklace of platinum and pearls and carried a rainbow bouquet of yellow chrysanthemums.

Effie Loriana Hamilton, sister of the groom, came next. She wore a beautiful white lace dress over Parisian silk, with a necklace of pearls and carried a rainbow bouquet of yellow chysanthemums. The matron of honor, Gertrude E. Dolliver, cousin of the bride, wore an imported wisteria charmeuse with Point lace and chiffon and cloth of gold. She wore a necklace of diamonds and pearls and carried an arm bouquet of wisteria chrysanthemums.

The bride entered with her aunt, Mrs. Irene B. Frost of Portland, who gave her away. The fair blonde beauty of the bride was most appealing in her regal wedding gown of Duchess satin combined with shadow lace embroidered in pearls. The corsage was trimmed with soft touches of chiffon with pearl ornaments. The skirt of the gown was gracefully draped in chiffon and lace caught with sprays of orange blossoms. The veil was caught with a coronet of orange blossoms and fell in graceful folds to the end of the long train. She carried an arm bouquet of brides' roses and valley lilies.

Her going away gown was a taupe shade of charmeuse, large picture hat and accessories to match.

Rev. C. H. Murrey of Waterboro performed the impressive double ring ceremony. Immediately following which the wedding party was photographed by an efficient photographer from Portland.

The bride's cake was cut and the wedding breakfast so tastefully arranged and served added much to the festive occasion. The whole party motored to the station to shower the couple with rice and confetti as they stepped aboard the train. The bride threw her bouquet into the crowd. It was arranged in three parts and hit the sisters and brother of the groom. So another wedding in the Hamilton family is looked for in the near future in spite of the fact that Benj. Hamilton found the thimble in his piece of cake.

The young couple sailed at once for Havana on their honeymoon. They will be at home after Dec. 29, at Turiguane, Cuba, where Mr. Hamilton has large business interests.

A STONE ROOFING

A good many people say and some people really think that none of the manufactured roofings are durable. Now this is a great mistake. A roofing that is composed of Asbestos and Portland Cement is practically everlasting. If you wish to pay the price, which is not very high either, you can have a roofing that will last as long as the Pyramids. As the philosophic John D. Rockefeller says about Sunday School, "The more you put in, the more you can take out."

J-M Asbestos Roofing is literary a sheet of pliable stone—with the rust-proof, rot-proof, acid-proof and lasting qualities of stone and with the fire-proof quality of Asbestos. And—like all stone—it never need painting.

We are agents for all grades of **H. W. Johns-Manville Co's Asbestos Roofings** and can furnish them for any desired price. Call and se the roofings or ask for samples and prices.

Old Age,

Every day this world grows older,
And its sands are running fast;
There stands Old Age with stooping shoulders,
For his youth has long since passed.

He who once was so young and sprightly,
With life sparkling in his eyes,
Who once considered life so lightly;
Now approaches the time to die.

Every day he grows still nearer
To that grave so dark and cold,
Every day life becomes dearer;
For he knows he's growing old.

He wanders on head bowed by sorrow,
Nearer to that heavenly home;
Perhaps he knows that on the morrow,
He'll forever cease to roam.

So we approach our destination;
And by our side a spector pale;
"Death," carries on his dread vocation,
And we know he never fails.

Norway, Me. (C. V. S.)

Some Woodstock Ideals.

The old year 1912 is fast drawing to a close and the new year 1913 will soon be with us. At this period between Thanksgiving and New Year's it is well for the people of any community to take account of stock, not only for each individual engaged in business but for the community as a unit, to not only add to the accounts, the accomplishments of the year, but to take a look into the future and discover, if possible, what is most needed to make the community life stronger, better and more prosperous.

We, who are so fortunate as to dwell within the limits of our good town of Woodstock, can boast of no great works completed the past year like elevated roads, subways or skyscraper buildings, for we realize we are only one of the little towns among the Oxford Hills, and consequently have no need of such things yet although our growth in a material way may be slower than some of our neighbors we feel that it is sure, that we are making progress and that Woodstock is becoming every year a better town in which to live and do business.

We do not half realize how much we can accomplish by working together for the things we want, for the things that are needed here.

Bryant Pond has one of the finest natural locations of any village in Oxford county for business or as a summer resort and all that is needed is an intelligent persistent hustle in all we undertake to make this become one of the banner towns of our state. Perhaps not in size but in all that is desirable and makes for progress in a town.

As a trade center our village has great possibilities. We are the natural center of a large area that is now increasing in population as the abandoned farms are one by one being taken up. It is seldom that we find in a little country village as fine a class of stores as we have right here at Bryant Pond and if our traders will pull together, adopt all the modern methods practical and advertise there is no reason why the trade of this village should not be largely increased within the next few years. The whole aim should be to bring trade to Bryant Pond and each trader will receive his share of this trade in proportion to his honesty and progresiveness.

What we all need to do is to wake up, get together, push, hustle and pull, not only for ourselves but for our town as well. It is easy to dream perhaps, yet we must dream and use our ideals before it is possible to have them in reality.

Our good old town has a future and that future is what we choose to make it. The signs of the times are full of promise. We should work together as never before for a bigger, busier and better Bryant Pond.

NORWAY AND VICINITY

Norway Pine Grove Cemetery.

Some History—Some Statistics—Some Facts—Some Fiction. A Suggestion, an Appeal to Friends. A Worthy Object.

We recenly went into the burying ground and have come out to tell about it. Strange, wasn't it? It was the Norway Pine Grove Cemetery situated in Paris, and like the Fair Grounds is between the two villages.

Its incorporate name leads you to suppose it is in Norway. It was once, but alas, a fatal day and bad legislature changed the boundary line and legally set it over into the adjoining town, much to the delight of Paris citizens and to the everlasting mortification, shame and disgrace of the living and dead on the Norway side of this long ago struggle.

Time has healed the lacerations and bruises of that memorable fight and the firy participants now sleep peacefully—as far as we know—side by side in this hallowed spot.

The grounds are reasonably well kept. Two styles of mortuary architecture, so to speak, are distinctly evident, the mound builders and the level land plots. We frankly admit preference to the latter, but want to delay that fateful day of occupancy away into the dim future. Who can tell? I can't and you can't and it is well.

Some who have started out in the mound building period have caused the curbing to be removed and have brought their lots onto a level grade. Noticeably, the Danforths, others will follow.

It's a good example.

General Manager and Superintendent Jesse Thomas, formerly of Otisfield or Oxford, says it is much easier to care for, and to keep the grounds in presentable shape where they are level, grass grows better in the summer and doesn't winter-kill so badly, it can be easier mowed and raked. This style is as it should be. It is adopted almost exclusively in the new part.

President of the Directors Dr. H. P. Jones tells us that Capt. W. W. Whitmarsh is authorized to sell lots at $35.00 each, half lot, 25.00, and a place for a single burial, $5.00.

Some years ago Uncle Peter Frost sold his building and land to Dr. Albert Thompson and it was thought that this was to be added to the cemetery. The Frost house was occupied for some years by care-taker Chas. Crockett, but recently this house has ceased to be the home of the care-taker, and he lives on the other side of the road.

The Thompson purchase includes a number of acres and it would be acceptable to the Association and would enable them to enlarge their grounds to accommodate their ever increasing family.

It is undoubtedly the intention of the owners to terrace down the bank on the South side towards the woods and thus enlarge the grounds, but this is expensive and funds are limited.

The officers of the Association are, to wit:—

Pres.—Dr. H. P. Jones.
Clerk—Capt. W. W. Whitmarsh.
Treas.—Judge Wm. F. Jones.
Supt.—Jesse Thomas.
Directors—H. P. Jones, Chas. L. Hathaway, Dr. B. F. Bradbury, Jas. O. Crooker and Henry B. Foster.

The annual meeting comes in May. The Association was organized Oct. 18, 1860. The income for maintainance is derived from the sale of lots and a few years since a permanent care fund was started. The smallest sum accepted is $50 for the care of a half lot and $100 for a lot of the usual size. A number of larger sums have been donated and the particular lot designated is cared for and the balance used for caring for other lots.

A fund of about $4000 is now available. The amounts donated for perpetual care are accepted by Treasurer W. F. Jones and when a sufficient amount is recieved a permanent investment is made by and with the consent and under the direction of the directors. Municipal securities that will net about 4 per cent are usually bought. It is the intention of the directors to see that these funds are safely invested and consequently the return is small.

It is much better to leave funds with this Association for the purpose named than to leave it with the town offices. They will care for it and expend it properly. We presume they will care for lots in other burying grounds than Pine Grove hence there is no necessity fo asking the town to accept trusts for such purposes. We object to having the Municipal officers receiving and caring for such trusts. Norway has several such trusts already—see town reports—no more should be accepted. Let the Norway Pine Grove Association have a monoply in this. They will care for it and wisely too.

Dr. H. P. Jones has taken much interest in caring for the burying ground and has devoted considerable time to it through Mr. Thomas. More could be done if funds were available.

Why don't some of the living well-to-does, who have money and who have friends and relatives buried here send a thousand or two, or a lesser amount to Treasurer Jones or President Jones of Norway? It will be acknowledged and spent as directed. We'd like to annouce such gifts in this paper.

Who will be the first one?

Look it up and see if this is not a worthy object and a good suggestion.

Do it now.

The beauty sign in the Elm House yard is supplemented by an excessively modest one high up over the big barn doors. Strangers see them and pass along in wondering admiration.

Truly they are within the law.

Public affairs do not amount to much, anyhow; it is your private affairs that are really serious and important.

H. C. Barker, known in Bethel as "Clint," sends us a printed bill of fare, showing what the old Vets had for Thanksgiving at the National Soldiers' Home on the 28th. It no doubt was a better lay-out than they had on Thanksgiving day, 1862. There was an orchestral concert during the dinner hour, and nary a stray bullet whistled by. In the evening, motion-pictures and mild vaudeville.

When you are disposed to be liberal, nearly everybody will take advantage of you and sell you a de luxe volume.

"Twenty years ago, Dec. 6th, I came to Norway and lived on Maple street," said W. S. Cordwell the other day. "The March following they voted on moving the County Buildings, and my right to vote was questioned in the hearing later instituted by D. S. Sanborn, et al. I showed conclusively that I got to town Dec. 6, 1892, and therefore my vote was not thrown out."

A true story of that memorable campaign would make interesting reading. Will not someone write it for us.

We can embellish it with the pictures of the old County Buildings and relate how Uncle Hod. Cummings drove the late A. F. Andrews and the writer out of his hotel.

Warm times in those days.

You may neglect the rules, but you can't avoid paying the penalty of suspicion of fraud.

Here is something a little revamped by the editor but expresses the sentiment of some of the people and is in the main as it was handed to us for publication. We gladly give it space:—

"Why continually knock the sidewalks? Why growl and find fault? Why not do something! Construct, build up and not tear down. Don't belittle the work done.

"Norway has more and better sidewalks at less expense to the tax payers than any other town in the State.

"You knew it when you wrote those recent digs. Such pieces do no good and don't sound well, especially to those who have a real abiding faith and interest in the town. Cut it out and you'll gain prestage and influence. Get on the other side and lift, not slur and pull down.

"The town is all right; the sidewalks are good and so is the sewerage system; quit abusing the people who have permitted you to prosper all these many years. Look smiley, be cheerful and happy even if the hands on the town clock get stuck in the snow.

"A pessimist never did anything worth while; forget your neighborhood grouch and go in and do things with those who have good digestion, brains and energy, and show a willingness to build up and not tear down."

Verily, the above sounds good and means nothing. Its much like the peroration of a spell-binder and is pleasing to the ears and easy to read. We can stand it. The other side can have space in this paper.

Refuge in a Big City Offered.

The World, New York, Dec. 2.

DEAR FRED:—If you have to leave town after last week's outburst of long pent up feelings—come and spend a week with us. As ever, DON C. SEITZ.

Thank You! Thank you! You may lay a plate for us about the first of the New Year.

The newspaper is the law book for the indolent, a sermon for the thoughtless, a library for the poor and an admonisher for the lawless. It may stimulate the most indifferent, but it cannot be published without cost and sent free to subscribers. This is no joke.

"Positively no admittance.
This means you."

This is pasted on the engine house door of B. F. Spinney & Co.'s steam plant, just a bit east of Cobblers' Hall, on Alley Lane.

Why should anyone want to go in there? We don't.

"Here is the last home and resting place of a former prominent Norway man who in his day and generation did much for the town." This was told us by the guide who was recently showing us through the Pine Grove cemetery.

"Who is it?" we asked as we looked upon an un-marked, un-kept, and as we supposed, an unoccupied lot in a good location in the older part of the cemetery.

"Now guess," was the reply, "the man who lies in that neglected lot was the projector, promoter, builder, and a large owner of the Norway Water Co., and for years was its president. In the Norway Building Association—which is the Opera House Block he did the same—they are monuments to him if his grave has none. The Norway Packing Co. was at one time his; he was the leading director and the power behind the Norway National Bank and a careful and painstaking trustee of the Norway Saving Bank, he represented our town in the legislature and was a good selectman and held many minor offices—he was a leader, an industrial power among us and a good man respected by all—he left a large property and——."

"We know, we know," was our reply, go no farther with the recital, but why is this grave and lot left neglected and unmarked; his wife preceded him some years ago and he has been buried here several years. He left a good property. Maybe this is the way he wanted it—he was peculiar you know—excessively sensitive and unassuming, however its a good deal out of the ordinary and we can hardly believe it it as he would like to have it."

Our companion disagreed with us and said in his opinion, it was a case of simply neglect. That and that only.

"That cannot be," was our reply. "Surely this grave should be marked, if not by relatives, then by friends in this community who cherish his memory."

"I got a dog of Grant Royal in Paris, and its a great one," thus spake J. Freel Bolster, "I've got 3 foxes with him and should have had 2 more, it was no fault of the dog."

"These pelts I got ought to bring $8.00 each, $24.00 and maybe it cost me three times that amount but fox hunting is great fun you know."

Another fox hunter says "Freel Bolster shoots most of his foxes from a top-buggy." I don't know what that means, it's probably a technical term.

Lets try and do something. Never will do it unless you try. Lets all get on to the snow roller and ride this winter. We have two snow rollers and no snow. Its something awful!
